The plan is managed by the Kentucky Retirement Systems (KRS) and allows participants to receive a predictable monthly benefit in retirement. The formula used for the KERS plan is $1.25\% \times (\text{Average Salary} \times \text{Years of Service})$. This means that employees who have worked longer and have a higher average salary will receive a higher benefit in retirement. The benefit is then calculated to provide a predictable monthly benefit based on the employee's life expectancy. Despite the importance of pensions, there are several factors that JCPS employees should be aware of. One critical consideration is the impact of the 2013 pension reform law, Senate Bill 2 (SB 2). This legislation aimed to reduce the unfunded liability of the KERS plan by increasing employee contributions and capping cost-of-living adjustments (COLAs) for retirees.
